

# CAMP MIRACLES

## JOIN US THIS SUMMER!

Camp Miracles is a program of Hope for Kids which focuses on giving students the opportunity to connect with mentors, peers and nature at our beautiful 88 acre camp facility in Schwenksville, Pennsylvania. Campers are paired up on-on-one with high school and college aged mentors from around the world. Together, they learn perseverance and grit through our obstacle courses, rock wall, and ziplines. They learn to become stewards of the environment through our environmental education curriculum. They learn that building healthy habits is easier when it's made fun! They create life-long memories with their mentors and friends. And ultimately, they get to be kids in a safe place where they're cared for, challenged and encouraged.

We've seen some of our Camp Miracles campers graduate and become mentors, counselors and camp staff themselves. They've also obtained scholarships to college, joined the workforce and helped to build up their own communities. We hope you'll join us this summer!
